The Research Help Librarians at the duPont Library want to make researching and finding great sources easier. This activity is designed to give you practice searching a library database and examining the results to help you find the best sources.

Write out the research topic or question that you are interested in:

List the key concepts of this topic:

Search for those key concepts together in the PsycINFO library database
- Start at the library website: library.sewanee.edu
- Choose “Research Tools” then “Find Databases”
- Choose PsycINFO 1887-current from the list of databases

Review the results and look for three articles on your topic that look interesting to you. List their titles and authors here.

Need help? Ask a librarian! Email us: research@sewanee.edu Make an appointment: library.sewanee.edu
Select one of the three articles to view the details about it (the title, the author(s), the source it is in, the date, and so on). Click on the title of the article to see this detailed page.

What do you see in this information to let you know what type of source this is? Is it a journal article, book chapter, report?

Print this detailed page and bring it to your library session along with this worksheet.
